Prescription Information

This Medication has been compounded in our pharmacy, specifically for you, to fill the prescription your doctor wrote. The formula was made to meet your individual needs and therefore no standardized information or literature is available for your prescription. If you have not done so already, please discuss this medicine with your doctor or pharmacist to ensure that you understand 1) what you are taking this medication for, 2) How to properly take this medication, and 3) the interactions this medication may have with any other prescriptions you are taking.

Compounding is a long-standing pharmacy practice that allows your doctor to treat your specific needs without being restricted to only those drugs or devices that may be purchased off-the-shelf. The medicine you are receiving today was prepared in our compounding pharmacy to meet the specifications ordered by your doctor.

Advise your doctor or pharmacist of:

- o You experience and side effects other than those discussed with your pharmacist or doctor
- o You are taking additional medications that may interact with this compounded medication
- o You have allergies or other conditions that should be noted

Call Your pharmacist if:

- o Information on the label is unclear to you
- o You have any concerns regarding proper storage, ingredients or precautions when using this medication.

Please call our pharmacists at 480-969-0600. We would be happy to help with any additional questions or concerns.

Call Your Doctor for medical advice about side effects. You may report effects to FDA at 1-800-FDA-1088.
